RE: Blast-Off - LEED Compliance

To Whom It May Concern:

Nox-Crete Products Group is committed to the manufacture of products which foster environmentally sound building practices and processes and which are also safer for the people who use them. We continually strive to improve and innovate product solutions to meet the needs of our customers.

REGIONAL MATERIALS

All Nox-Crete products are manufactured in Omaha, Nebraska-area production facilities. Choosing Nox-Crete products for use on projects within a 500-mile radius may contribute to the acquisition of LEED points for Regional Materials MR 5.

RECYCLED CONTENT

This product is produced using no recycled post-consumer materials.

RAPIDLY RENEWABLE MATERIALS

Nox-Crete certifies that Blast-Off contains rapidly renewable materials derived from plants with a 10-year or shorter harvest cycle as required by LEED Rapidly Renewable Materials MR 6 and may contribute to the acquisition of LEED credit in this category.

ADDITIONAL LEED CREDIT CATEGORIES

This product may also contribute to the acquisition of additional LEED credits beyond what is indicated here. Additional information regarding this, as well as Nox-Crete's commitment to building green and our support of the efforts of the U.S. Green Building Council, can be found by visiting our website at www.nox-crete.com.

For additional technical support, please contact our Customer Service Department at (800) 669-2738.

Sincerely,

A handwritten signature in black ink that reads "Michael A. Linn".
