Section 1. Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
Product Form: Mixture
Trade Name: CLEAR PRE-FORM
Product Code: CP

1.2 Relevant identified uses of the substance or mixture and uses advised against
Use: Industrial. For professional use only.

1.3 Details of the supplier of the safety data sheet
Manufacturer
NOX-CRETE, INC.
1444 SOUTH 20TH STREET
OMAHA, NE 68108
Tel: 402-341-2080
Fax: 402-341-9752
E-Mail: corporate@nox-crete.com
Web Site: www.nox-crete.com

1.4 Emergency telephone number
Emergency Number
Chemtrec (800) 424-9300
Chemtrec Outside of U.S. 703-527-3887

Section 2. Hazards identification

2.1 Classification of the substance or mixture
Flam Liq. 2 H225
Asp. Tox. 1 H304
Acute Tox. 4 (dermal) H312
Skin Irrit. 2 H315
Skin Sens 1 H317
Eye Irrit. 2 H319
Acute Tox. 1 (inhalation) H330
Resp Sens 1 H34
STOT SE 3 Resp Irrit. H35
STOT SE 3 drowsiness H336
Car 2 H351
Repr. 2 H361
STOT RE 2 H373

Full text of H phrases see section 16
Adverse physiochemical, human health and environmental effects
No additional information available

2.2 Label elements
Hazard pictograms
# CLEAR PRE-FORM Safety Data Sheet

## Precautionary statements

### Prevention:

- P201 - Obtain special instructions before use
- P202 - Do not handle until all safety precautions have been read and understood
- P210 - Keep away from heat/sparks/open flames/hot surfaces-No smoking
- P233 - Keep container tightly closed
- P240 - Ground/bond container and receiving equipment
- P241 - Use explosion-proof electrical/ventilating/light/equipment
- P242 - Use only non-sparking tools
- P243 - Take precautionary measures against static discharge
- P260 - Do not breathe dust/fume/gas/mist/vapors/spray
- P264 - Wash exposed area's thoroughly after handling.
- P271 - Use only outdoors or in a well-ventilated area
- P272 - Contaminated work clothing should not be allowed out of the workplace.
- P280 - Wear protective gloves/protective clothing/eye protection/face protection
- P285 - In case of inadequate ventilation wear respiratory protection

### Response:

- P301+P310 - IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician
- P303+P361+P353 - IF ON SKIN (or hair): Remove / Take off immediately all contaminated clothing. Rinse skin with water / shower
- P304+P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
- P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so - continue rinsing
- P312 - Call a POISON CENTER or doctor/physician if you feel unwell.
- P331 - Do NOT induce vomiting
- P333+P313 - If skin irritation or rash occurs: Get medical advice/attention
- P337+P313 - If eye irritation persists: Get medical advice/attention

Pursuant to 29CFR 1910.1200(i) the specific chemical identity (and / or) concentration is being withheld as Trade Secret, while all health and safety properties and effects are included in the SDS.

Section 4. First aid measures

4.1 Description of first aid measures

P342+P311 - If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician
P363 - Wash contaminated clothing before reuse.
P370+P378 - In case of fire: Use Dry chemical, foam, carbon dioxide for extinction

Storage:
P403+P405+P235+P233 - Store locked up in a cool well ventilated place. Keep container tightly closed.

Disposal:
P501 - Dispose of contents/container in accordance with local/regional/national/international regulations.

2.3 Other hazards
None known

Full text of H and P phrases: see section 16
First-aid measures general

Get medical advice/attention if you feel unwell. Never give anything by mouth to an unconscious person.

First-aid measures after inhalation

If the individual experiences nausea, dizziness, has difficulty in breathing seek a healthcare professional immediately. In all cases of doubt, or when symptoms persist, seek medical advice. Remove to fresh air and keep at rest in a position comfortable for breathing. Immediately call a Poison Center or doctor/physician.

First-aid measures after skin contact

If skin irritation persists, seek medical attention. Remove or take off immediately all contaminated clothing. Rinse skin with water or shower. Wash off immediately with soap and plenty of water.

First-aid measure after eye contact

When contact lenses are worn, remove if possible. In case of contact with eyes, rinse immediately with plenty of flowing water for 10 to 15 minutes while holding eyelids apart. Get medical attention immediately. Rinse mouth. DO NOT induce vomiting. Get medical attention immediately.

First-aid measures after ingestion

Rinse mouth. DO NOT induce vomiting. Get medical attention immediately.

4.2 Most important symptoms and effects, acute and delayed

Symptoms/injuries after inhalation

May cause irritation to the respiratory tract. Overexposure to vapors may result in headache, nausea, drowsiness or dizziness.

Symptoms/injuries after skin contact

May cause skin irritation or burning sensation

Symptoms/injuries after eye contact

May cause eye irritation or injury

Symptoms/injuries after ingestion

May cause severe irritation or burns to the mucous membrane of the mouth, throat, esophagus and stomach

4.3 Indication of any immediate medical attention and special treatment needed

No additional information available

Section 5. Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media

Dry chemical, foam, carbon dioxide

Unsuitable extinguishing media

If water is used it should be in very large quantities. The reaction between hot isocyanate and water may be vigorous.

5.2 Special hazards arising from the substance or mixture

Reactivity

Thermal decomposition products may cause a health hazard.

5.3 Advice for firefighters

Firefighting instructions

Flammable Liquid! This material releases vapors when heated above ambient temperatures. Vapors can cause a flash fire.

Protective equipment for firefighters

Firefighters should always wear self-contained breathing apparatus (SCBA) and full protective gear when fighting any chemical fire.

Other information

On heating or burning harmful gasses/vapors may be released. This product may cause the floor to become slippery.

Section 6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

General measures

Cleanup should only be performed by trained personnel. People dealing with major spills should wear full protective clothing including respirator protection. Extremely Flammable. Eliminate any ignition sources. Take proper precautions to ensure your own health and safety before attempting spill control or cleanup.

6.11 Protective Equipment

6.2 Environmental precautions

Prevent entry to sewers and public waters.

Notify authorities if liquid enters sewers or public waters.

6.3 Methods and materials for containment and cleaning up
Methods for cleaning up

Contain and absorb large spills onto an inert, non-flammable absorbent carrier (such as earth or sand). Shovel into open top drum for further decontamination, if necessary. Wash the spill area clean with liquid decontamination solution. Neutralize small spills with liquid decontamination solution. Remove and properly dispose of residues.

PREPARATION OF DECONTAMINATION SOLUTION - Prepare a decontamination solution of (0.2-0.5 % liquid detergent and 3.0-8.0 % concentrated ammonium hydroxide in water) 5.0-10.0 % sodium carbonate may be substituted for the ammonium hydroxide. Follow the precautions on the supplier's Safety Data Sheets when preparing and using the solution.

USE OF DECONTAMINATION SOLUTION - Allow deactivated material to stand for at least 30 minutes before shoveling into drums. Do not tighten drum bungs. Mixing with wet earth is also effective, but slower.

Section 7. Handling and storage

7.1 Precautions for safe handling

Protective measures

Wash hands and other exposed areas with soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in work areas to prevent formation of vapor. When not in use keep containers tightly closed. Avoid breathing vapor or mist.

Hygiene measures

Wash contaminated clothing before reuse.

7.2 Conditions for safe storage, including any incompatibilities

Storage conditions

Store in accordance with local regulations. Store in original container in a cool well-ventilated place away from heat, sparks and open flame. Keep containers tightly closed until ready for use.

Incompatible materials

Water, alcohol, ammonia, amines, alkalies. Some reactions can be violent.

Storage temperature

Store in a cool dry environment away from sources of ignition.

Section 8. Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

### 8.2 Exposure controls

#### Appropriate engineering controls
Use with adequate ventilation to keep product vapor concentrations below specified TLV.

#### Eye and face protection
Chemical goggles and/or face shields are required to prevent potential eye contact, irritation or injury.

#### Skin protection
Wear chemical resistant gloves and appropriate protective clothing and boots as required to prevent skin contact. Wash exposed skin frequently with soap and water. Soiled clothing should be laundered before reuse.

#### Respiratory protection
Avoid breathing the product mist or vapors. The use of a NIOSH approved positive air supplied respirator is recommended whenever the airborne concentrations exceed the specified TLV or there is a high concentration of product in the air such as created by spraying the product. Air purifying (cartridge type) respirators are not approved for protection against diisocyanates.

### Section 9. Physical and chemical properties

### Section 10. Stability and reactivity

#### 10.1 Reactivity
Reacts with water

#### 10.2 Chemical stability
Stable under normal conditions

#### 10.3 Possibility of hazardous reactions
Hazardous polymerization will not occur.

#### 10.4 Conditions to avoid
Extreme high or low temperatures.
10.5 Incompatible materials
Water, alcohol, ammonia, amines, alkalis. Some reactions can be violent.

10.6 Hazardous decomposition products
Carbon monoxide, carbon dioxide, nitrogen oxides, and traces of hydrogen cyanide.

Section 11. Toxicology information

11.1 Information on toxicological effects
Acute toxicity
Irritation/Corrosion
Skin
May cause skin irritation or sensitization.

Eyes
May cause serious eye irritation and damage.

Respiration or skin sensitization
May cause respiratory irritation or sensitization.

Germ cell mutagenicity
No data available

Carcinogenicity
IARC

2B - Limited evidence in humans and less than sufficient evidence in animals.
3 - Inadequate in humans and inadequate or limited in animals.

Product is based on reacted Toluene Diisocyanate (TDI) and a Polyurethane Reacted Polymer. A small amount of TDI (<1.3 %) may be present in the product. Any potential hazard can be minimized by the proper use of personnel protective equipment, clothing and hygienic method.

Reproductive toxicity
No data available.

Specific target organ toxicity
Single exposure
No data available

Repeated exposure
No data available

Aspiration hazard
May be fatal if swallowed and enters airways

Section 12. Ecological information

12.1 Ecotoxicity
Not established

12.2 Persistence and degradability
Not established

12.3 Bioaccumulative potential
Not established

12.4 Mobility in soil
No additional information available

12.5 Other adverse effects
Avoid release to the environment

SECTION 13. Disposal Considerations

13.1 Waste treatment methods
The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all applicable local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes.

SECTION 14. Transport information
In accordance with ADR / RID / ADNR / IMDG / ICAO / IATA
14.1 UN number UN1866
14.2 UN proper shipping name Resin Solution
14.3 Transport hazard class(es) 3 (Flammable Liquid)
14.4 Packing group II
14.5 Environmental hazards No additional information available
14.6 Special precautions for user
14.7 Transport in bulk according to
Annex II of MARPOL 73/78 and the IBC Code No additional information available
14.8 Transport in bulk according to CFR 49 173.15 Not applicable

SECTION 15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
15.1.2 USA Regulations
Section 313 Contains the following ingredients at or above the reporting level requirements of Section 313. This information must be included in all SDS's copied or distributed for this material.
