

Restore decorative concrete surfaces the easy way!

Step 1: Remove worn-out, peeling or faded sealers to prepare the decorative surface.

NOX-CRETE BIODEGRADABLE STRIPPERS

Two options for quick and painless decorative acrylic sealer removal.

NEW! DECO-PEEL

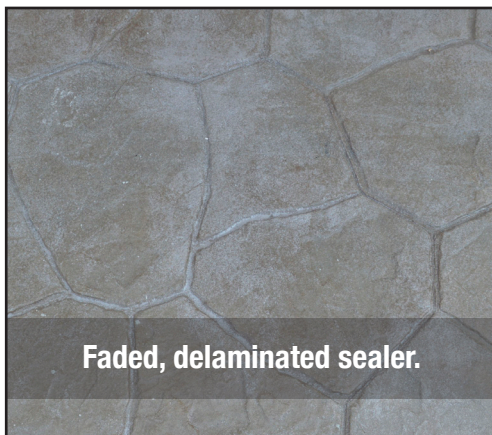

Two component system incorporating a specially engineered blanket and biodegradable stripper for controlled sealer removal.

SIMPLE APPLICATION! NO PRESSURE WASHER REQUIRED!

ORIGINAL DECO-STRIP

Biodegradable stripper softens acrylic to be removed with pressure washer - no scrubbing, scraping or harmful waste.

Restore decorative concrete surfaces the easy way!

Step 2: Protect the surface with a long-lasting, high-quality, breathable decorative acrylic sealer.

NOX-CRETE DECORATIVE SEALERS

Our decorative sealers use top-grade acrylic resins and deep, penetrating solvents and allow for water vapor transmission - for durable and long-lasting beauty and protection.

Sparkl-Seal

- 25% solids, acrylic polymer
- Highest-grade acrylic resin
- Deepest penetrating solvents
- Excellent UV light resistance
- High-gloss with two coats
- Available in low VOC formulation

Cure & Seal 1315 A

- 25% solids, acrylic copolymer
- Solvent-based formulation
- Can be used to cure and seal concrete
- Available in low VOC formulation

Cure & Seal 1200 E

- 12% solids, acrylic polymer
- Water-based formulation
- Highest-grade acrylic resin
- Breathes better than solvent-based
- Exceptional UV resistance

Natralseal

- Formulated for longer working time and easy spray or roll application
- Improved breathability & adhesion
- Highest-grade acrylic resin
- Deepest penetrating solvents
- Enhanced UV light resistance
- Available in low VOC formulation

Cure & Seal 309 LVOC

- Formulated for longer working time and easy spray or roll application
- Highest-grade acrylic resin
- Improved breathability & adhesion
- Can be used to cure and seal concrete
- Exceptional UV resistance

More sealers available to meet all job and finish requirements!

Since 1956, Nox-Crete has manufactured performance-driven products with quality materials.
