

STAMP RELEASE

COLORLESS, BUBBLE GUM SCENTED
LIQUID RELEASE AGENT FOR STAMP
MATS, STENCILS, AND OTHER
DECORATIVE CONCRETE TOOLS.

chemical solutions to **concrete** problems

HELPS MAINTAIN **SHARP CLEAN** EDGES AND DETAILS

STAMP RELEASE creates a lubricating barrier between freshly placed concrete and decorative tools, including stamp mats and texture skins. Optional tint paks are available that can be added to **STAMP RELEASE** for a decorative antique appearance.

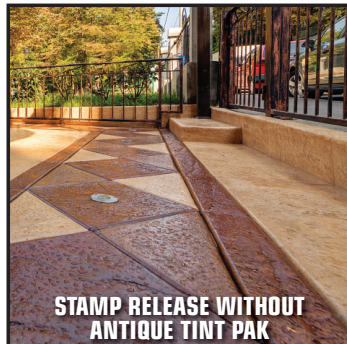

- Economical, easy-to-use formula evaporates after use and requires minimal clean up.
- Lubricating barrier helps protect and prolong the life of stamping and texturizing tools.
- Reduces likelihood of excessive marking common to powder releases.
- Controlled drying provides ample working time—even under extreme conditions.
- When properly applied, does not interfere with the color or texture of stamped concrete.
- Optional tint paks are available (four colors) that can be added to **STAMP RELEASE** to create an “antique” appearance.
- Does not interfere with the subsequent application of decorative sealers and coatings.
- Pleasantly-scented.
