Clean Line Reveal

nox-crete®
chemical solutions to concrete problems

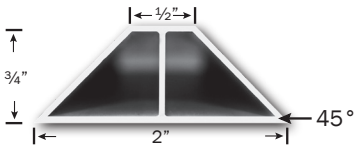

REVEALING THE ANSWER TO RUSTICATION STRIPS

Nox-Crete offers a standard and custom extruded high density PVC reveal for precast concrete producers.

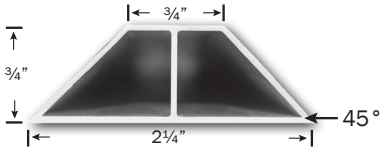

AVAILABLE PROFILES

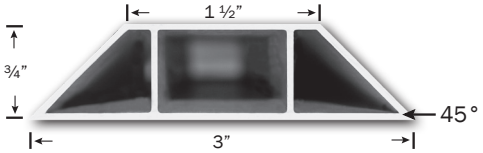

CLR 1
400 ft./box

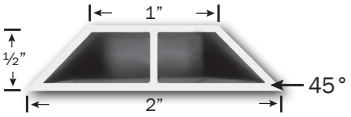

CLR 2
400 ft./box

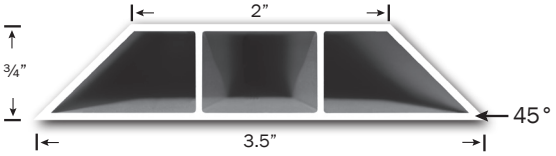

CLR 3
400 ft./box

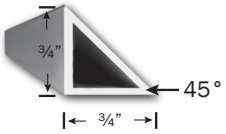

CLR 4
240 ft./box

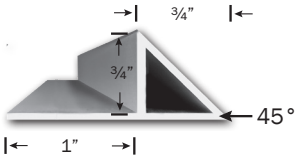

CLR 5
400 ft./box

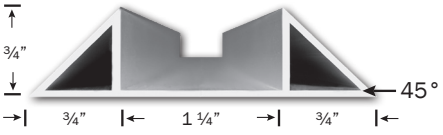

CLR 6
200 ft./box

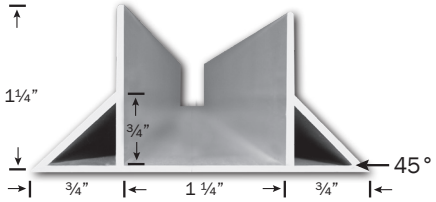

CLR 10
800 ft./box

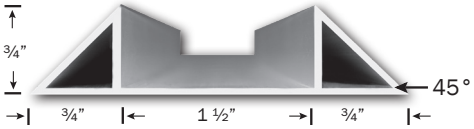

CLR 11
384 ft./box

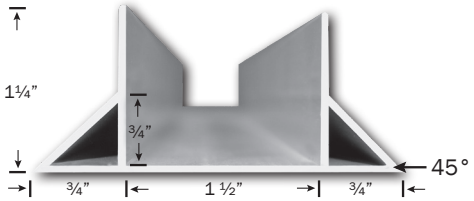

CLR DCEL ¾" Double Chamfer
(fits 1 ¼ engineered lumber)
200 ft./box

CLR HDCEL ¾" High Double Chamfer
(fits 1 ¼" engineered lumber)
200 ft./box

CLR DCDL ¾" Double Chamfer
(fits 1 ½" dimensional lumber)
200 ft./box

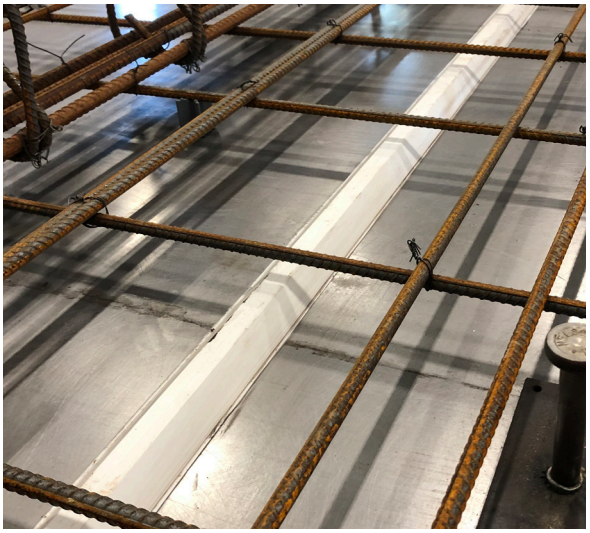

CLR HDCDL ¾" High Double Chamfer
(fits 1 ½" dimensional lumber)
200 ft./box

WINNER OF THE 2018 MIP most innovative products AT WORLD OF CONCRETE

Clean Line Reveal

With Nox-Crete's Clean Line Reveal Strips, you can create design details in Precast Concrete Structures like never before.

Here are some advantages to using Clean Line Reveal Strips.

- **Lightweight & Durable** - Are a fraction of the weight of wood, but very durable and largely unaffected by climatic changes.

- **Easy Installation/Fastening** - Can be installed with caulk-type adhesive.

- **Uniform Finish** - Clean release leaves an incredibly smooth and uniform finish unlike wood.

- **Eliminates Retardation** - Wood reveals contain sugars that can leach from the wood and cause retardation and discoloration of the concrete. Clean Line Reveal Strips eliminate this concern.

- **Easy Fabrication** - Reveals can be cut with any circular/miter saw.

- **Easy Removal**

- **Cost Savings**

- **Clean Release**

- **Reusable**
