HOW IT WORKS

NOX-SOLV is designed to quickly dissolve spray and tape adhesive residue as well as caulk residue and plywood form panel edge seal residue.

APPLICATIONS

- ◆ For removal of adhesives used with Nox-Crete Clean Line Reveal or other rustication strips.
- ◆ For removal of adhesives used with Nox-Crete Select Form Brackets or other edge form brackets.
- ◆ For removal of Select Joint Tape residue from tilt-up casting slabs.
- ◆ For removal of caulk residue used on precast casting beds or other precast mold applications.
- ◆ For removal of form panel edge seal from overlaid form panel faces.

ADVANTAGES

- ◆ Available in versions that are VOC compliant in all areas of the United States and Canada.
- ◆ DOT classified nonflammable in the United States.
- ◆ Direct replacements for xylene with better properties.
- ◆ Best options for maximum working time.

⚠ PRECAUTIONS ⚠

- ◆ Due to odor and flash point, Nox-Solv products should only be used in well-ventilated areas.
- ◆ For maximum working time and best results Nox-Solv should be used when the surface and air temperatures are below 80°F (27°C).
- ◆ Surface and air temperatures below 40°F (4°C) will significantly extend Nox-Solv drying time.

USE INSTRUCTIONS

- ◆ Request current product literature, labels, and safety data sheets from the manufacturer and read them thoroughly before product use

- ◆ Site environmental conditions, substrate conditions, and construction have a major effect on product selection, application methods, procedures and rates, appearance, and performance. Product literature provides general information applicable to some conditions. However, an adequate site test application by the purchaser or installer in advance of field scale use is mandatory (irrespective of any other verbal or written representations) to verify that the product and quantities purchased can be satisfactorily applied and will achieve the desired appearance and performance under intended use conditions.
- ◆ Before proceeding with the Nox-Solv application, remove any loose debris that could interfere with the application and ultimate performance of the product.
- ◆ Apply Nox-Solv as required with a sprayer, roller, mop, or brush. Allow the product to dwell on the surface for 30 to 60 seconds and then use clean absorbent rags or towels to absorb and remove the dissolved material. Additional applications of Nox-Solv may be required to completely remove all residue.

TECHNICAL DATA

Physical Properties	NOX-SOLV	NOX-SOLV EX
Color	Water White	Water White
Clarity	Clear	Clear
Odor	Solvent	Solvent
VOC (Specialty Adhesive Remover)	N/A	<70% or <685 g/L
